

Oscar Dominguez is president of Lear Mexico operations and a 34-year veteran of the automotive industry who began his career as a production supervisor in United Technologies Automotive in a Mexico wiring facility.

He joined Lear nearly 20 years ago as a director of wiring operations in Mexico and has since held several leadership positions around the world in our Seating and E-Systems Operations.

Oscar earned a Bachelor of Science degree in Industrial Engineering from the Instituto Tecnológico de Chihuahua and a Master of Engineering Management from Michigan University. He is also actively involved in his local community and serves as President of United Way Chihuahua.
